### The Hurd Bill

Washington, May 3—Congressman Newberry has written a letter to the president of the Detroit board of trade concerning the Hurd bill, which contains much information that is pat and spicy He says

The true inwardness of the Hurd bill rests substantially on two grounds First to defeat the building of the Wabash extension to Detroit. Second, to bear the Canada Southern and Michigan Central stock in Wall street It has been said openly on the floor of the house that such was the design as to the first point. As to the second point there are many facts that bear secretly upon it The bill comes from the opponents of the Canada Southern It comes from those who it is openly said have unloaded on the public large blocks of [illegible] at a majority of the stock at from $59 to $73 and now desire to buy it back at a lower figure. It is an open secret that a pool has been formed to bear stock at $50 and even [illegible] and that legislation would be had to aid this movement. A noted Wall street speculator or Wm. T Scott offered to wager $10 000 that the Canada Southern would go below $50 and curious enough this man is credited with the authorship of the Hurd bill It is also said that he prepared or instructed the argument read before the committee on ways and means Now add the following fact that two days before this report was promulgated the Canada Southern stock was 64 Rumor followed as to this report and the stock weakened. Then the report was published in New York and the stock dropped to $59¼ or 60 This gave the pool a profit of from $100 000 to $200 000 Newberry proceeds to denounce the ways and means committee.

### Important Railroad Transactions.

Congressman Newberry of Michigan has received a private telegram from interested friends announcing that the Wabash railroad has leased the Great Western of Canada thus making another trunk line from San Francisco to New York James F Joy went to Europe for this purchase and to secure a lease from foreign stockholders of the Great Western and this dispatch indicates that he has accomplished his purpose. Newberry has further information that the Great Western will build a line from Welland to Lewiston Canada, and then connect with the Ontario and Western road which was formerly known as the New York Midland and runs from Lewiston to Oswego and New York city This will give Jay Gould an unbroken trunk line from San Francisco to New York It is understood here that Jas Keene and other New York speculators were unloading Lake Shore and Northwestern stock in New York yesterday as fast as they could do so without breaking the market which seems to indicate that Newberry's news is true It is believed now that the introduction of the Hurd bill was among other motives intended to prevent this lease

### Republicans in the House Dodge a Vote on the Third Term Question

Washington May 3—The house was in session only about two hours to day and most of that time was consumed in [illegible] ... to prevent Representative [illegible] ... [illegible] the floor ... ### Tilden and the Pennsylvania Vote

Washington May 3—The anti Tilden members of congress from Pennsylvania ridicule the statement of the New York *Sun* that Tilden has 32 certain and probably as many as 50 votes in the delegation from that state to the Cincinnati convention They foot up Tilden's maximum strength in the Pennsylvania delegation at 16 and one of them expresses the opinion that Tilden will not get a dozen Pennsylvania votes at Cincinnati

### Revenues and Expenses.

The secretary of the treasury answering a note of Senator Bayard as to the practicability of the pending bill to extinguish [illegible] 000 000 of 6 per cent bonds outstanding, at maturity, shows that the surplus revenue even if the enormous increase that the revenues have made since January should continue would be insufficient by at least one-half with the present deficiency bills and prospects of more It would be impossible without decreasing largely the cash in the treasury, to pay off the amount required unless indeed congress decides on increased taxation in other respects He considers the bill ill advised and superfluous

### A Land Case.

Washington May 3—The secretary of the interior to day, declined to reconsider his decision of December 31 1879 relative to the Corte De Madera Del Presidio land grant, opposite San Francisco Cal by which a valuable tract was excluded from patent

## THE NEW CHINESE COMMISSION

### The Programme of Minister Angell and his Colleagues—Secretary Evarts' Views—Cheering News for the Pacific Coast.

[SPECIAL DISPATCH TO THE OREGONIAN]

Washington May 3—Minister Angell writes to Commissioner John F Swift that his Michigan engagements will not admit of his coming on to Washington before the middle of May He has therefore invited Mr Swift to make him a visit at Ann Arbor for the purpose of exchanging views as to their prospective work together and Swift will do so en route to California, leaving Washington probably next Tuesday and arriving at San Francisco on or about the 20th inst. Minister Angell and Commissioner and Minister Trescot expect to reach San Francisco together between the 1st and 5th of June Mr Swift has had several long talks with the secretary of state during the past week He finds that the various aspects of the Chinese question as they present themselves to the people of the Pacific coast have been the subject of careful consideration on the part of Secretary Evarts, and that the equity of the claims of our people for relief and the duty of the federal government to give the question proper treatment are unhesitatingly acknowledged The secretary, while taking the ground that all the interests of the country should be considered in the proposed negotiations does not anticipate that there will be any serious obstacles in obtaining for the pre-eminently important topic of Chinese immigration a disposition by the Chinese government compliable with the just interests of the Pacific coast. Mr Swift has also found the attitude and temper of Secretary Evarts in laying out the proposed action of the commission acutely observant of the serious present and prospective effects of unrestricted Mongolian immigration upon social industrial and other public interests of the people of the Pacific coast as understood by themselves and he (Swift) has no doubt that when instructions are prepared they will be such as will be entirely satisfactory to the best opinion of the judicious people of the Pacific coast and that if a satisfactory treaty be not made the fault will be with the Chinese government and not with ours.

It may be safely predicted from what is already intimated in official quarters that the instructions will clearly and explicitly express the desire and purpose of our government to obtain such a modification of the Burlingame treaty as will prevent immigration or importation of Chinamen to this country merely as laborers. The comparatively very small numbers of the better classes who may desire to come to the United States for the purpose of trade, education curiosity and of commerce are not considered inimical to our institutions, but the Mongolian coolie class is to be excluded by all the barriers that diplomacy can secure

## SOUTH AMERICA.

### The South American War

Vance cited testimony regarding the alteration of the face of returns at night in Kellogg's house Vance in further remarks said that telegrams between Kellogg and his friends furnished by the Western Union Telegraph Co were in cipher and unintelligible. An innocent man would probably help to translate them voluntarily

Kellogg stated that he had offered to do so as appeared by the testimony but was not allowed to do so

Saulsbury said that the committee had given permission but he had not availed himself of it

Vance continued by reading some of the cipher telegrams and translating them as the committee supposed they should read One reads as follows

*To Gen A S Badger Collector of Customs New Orleans*—[illegible] ... all can while [illegible] absent. Hawley little fear away week

Vance translated it thus Please appoint blank and blank permanently Important. [illegible] that all you can while Sherman is absent Hawley's a little easier Sherman is away this week

KELLOGG.

Vance supposed that the senator from Louisiana would correct him if his translation was wrong

Kellogg having left the chamber Vance raised a laugh by reciting the well known lines "He smiled a kinder sickly smile and curled up on the floor and the subsequent proceedings interested him no more" The telegrams were so numerous that Vance could read but a few which he interpreted as implicating Kellogg in tampering with witnesses and directing the movements of persons working in his interest Vance then considered the legal aspects of the case and argued that the Packard legislature had no legal existence and the choice of the Nichols legislature was the only recourse of the state It had been said that it was a dangerous precedent to reverse the former action of the senate Vance thought it a more dangerous precedent to say that a senator was entitled to a seat on the merits of a case when in fact the merits had not been inquired into

Carpenter asked whether the senator claimed that after the senate had taken up the case and heard and finally disposed of it by a resolution declaring the claimant entitled to the seat on its merits nothing was settled?

Vance only held that the principle of *res adjudicata* did not apply to this case.

Saunders here obtained leave to consider the bill extending the northern boundary of Nebraska which was recommitted.

The senate went into executive session and considered Hamlin's Nicaraguan claim bill. Adjourned no action being taken

### House

Orth was given leave to explain to-morrow his connection with the Venezuelan claims He hoped Springer would be present as he might say something to interest him.

## VISIT TO THE COAL FIELDS

### The Olympia Board of Trade [illegible] a Ride over the O & T, R R—[illegible] Mound Prairies, etc, etc

Olympia, W T April 30 1880

To the Editor of the Oregonian

In accordance with an invitation of the Olympia and Tenino Railroad Co, our board of trade rode over the road to-day to Tenino from whence the gentlemen of the board, under the auspices of the company, were conducted to the coal fields of Thurston Co, within a few miles of Tenino

The day was lovely all that could be desired for the occasion We left the Olympia depot at 7:30 A M and reached Tenino (15 miles) at 8:30 A M The party was composed of about thirty persons, but later in the day they were joined by others, among whom were several ladies The ride over the road was delightful as the route abounds in solemn, majestic and romantic scenery Grand mountain peaks, dark precipitous chasms, lovely swamps bright and merry rolling prairie The line embraces bottom timber and upland The road is well graded, and the rolling stock is all in good order There are a few sharp curves and rapid lines Our time rated from 20 to 25 miles an hour Leaving Olympia, after a mile ride we pass through Tumwater a pretty town of about six hundred inhabitants, on the bluffs overlooking the Tumwater or DesChutes falls Here is situated the factory of the American Pipe Company, three flour mills and several other factories for furniture, sash doors blinds lumber &c. We then pass through a strip of timber land of about three miles to the edge of which the company extends in wooding up It reminded me of some Mississippi scenes The tender full, we are off again Now our course is over the beautiful bounding prairie, with the blue black hills to the west, the snow-capped coast range to the north and old hoary Mount Rainier to the east The scene is beautiful indeed Bush prairie contains between 2500 and 3000 acres of fine undulating land It was first settled by Bush a mulatto about 1852 It now contains several well to do farmers Now again through timber over gulches along the hill side and again the prairie is in view This is Rocky or Mound prairie and is almost as large in the clear as Bush's Here is a curiosity of nature or something else The great geologist has here a chance to try his knowledge and the old antiquary can become more old in his antiquaries As the eye stretches out over the vast clear plain it is met with innumerable knolls or small mounds that strike the imagination as light billows or ripples on the mighty deep The mounds are circular and conical in formation with an apparent depth in the centre of about three feet and a diameter of about fifteen feet Their uniformity and evenness of construction is certainly very striking No doubt you have often heard the why and the wherefore of these mounds explained and it would be rather monotonous to repeat it here Over the prairie through the mounds the [illegible] ... [illegible] ... Here we left the railroad and proceeded [illegible] about two miles to the coal beds After passing through several farms climbing over many fallen trees and up a hill side for about a quarter of a mile we at last reached the coal mines [illegible]

The vein is located by the [illegible] ... about twelve degrees The coal is of a [illegible] ... [illegible] ... [illegible] ... P M we returned to the hotel at the Tenino depot [illegible] ... You may be sure justice was done [illegible] ... The N P arrived at 3 P M and after an exchange of mail freight and passengers was all aboard and at [illegible] P M found us back in Olympia This was enjoyed an excellent trip which resulted in a determination to begin at once and in earnest to open and operate the coal mines in connection with which the O & T R R will be extended and shortly ship will be loaded with coal at Olympia

### Lord Hartington and Mr. Gladstone

[From the Cincinnati Commercial]

It is considered a great thing that Hartington who plays politician should speak well of Mr Gladstone Hartington is a lord and his commonplaces are applauded and reported as if they had meaning His greatness consists in his lordship and his estates and he has been told that he was a great man so much no doubt he believes it and feels it incumbent to amuse himself in public affairs He condescends to be kind to Gladstone who is a giant It is a great pity the English cannot wake up some day to the understanding of the absurdity of their system and drive all the lords and titled people from the queen down into one of the smaller Scotch islands and make it a death penalty for them to escape giving the alternative of working or starving

## WHITEAKER IN SIXTY-ONE

One John Whiteaker was governor of Oregon in 1861. He is the same who is now representing [illegible] and is a candidate for re-election. There was in his case a member [illegible] in the land [illegible] inasmuch as [illegible] of politicians [illegible] a war [illegible] offer [illegible] at that time [illegible] arbiter has been spoken [illegible] rebellion [illegible] through [illegible] in these later [illegible] happy in [illegible] demand [illegible] which nobody [illegible] was [illegible] Therefore [illegible] about the [illegible] but [illegible] to mention John Whiteaker [illegible] during the prevalence of the misunderstanding. For old residents of Oregon this will not be necessary, but it is well to remember that more than half the present population of Oregon have come to the state since Whiteaker was its governor. Among them there are many who may take an interest in learning what his position was in 1861. The statement will be pertinent, because he is a candidate now.

In all the non-seceding states in the early part of 1861 great meetings were being held to give expression to the determination of the people to support the government and maintain the union. The war for separation had been opened by the attack on Fort Sumter. Eleven states had assumed to withdraw from the union and had entered into a southern confederacy. Armies were gathered in the south and menaced the seat of the national government. It certainly was a time for all who believed in upholding national principle, national authority, the sovereignty of the national government and an undivided union to declare themselves. Meetings were held for this object at many places in Oregon. As the secessionists of the south were desperately in earnest and had actually opened the war, it was apparent that the day of compromises was past, and that the only arbiter was the sword. Hence it was a simple issue. The man who was opposed to the prosecution of the war was an enemy of the only possible policy through which national authority could be asserted and enforced and the national union maintained. Now Governor Whiteaker did not like these union meetings. A southern democrat himself and a believer both in the dogma of state supremacy and in the divine right of slavery, he was a thorough sympathizer with the southern secessionists. And so as his soul was moved by the spectacle of these meetings called and held for the purpose of giving moral support to the national cause, Gov Whiteaker issued an address to the people of Oregon, couched in as favorable terms to the southern confederacy as the seceders themselves could have desired. It was dated "Pleasant Hill May 28 1861." He began by descanting on the blessings of peace, which would have been pertinent if addressed to those who had begun the war. "It would certainly," he said, "be impolitic for us, however keenly we may sympathize with other sections, to subject ourselves to the calamities which afflict them; hence "we should not deceive ourselves and mistake for union meetings those which are held for the purpose of manufacturing partisan sentiment." Then after a labored argument to prove that it was not contrary to the duties of patriotism to oppose the war for maintenance of national authority and unity, after some kingly censures upon that portion of his Oregon subjects who were crying havoc and blood, after a distinct intimation that Oregon would not join in the war upon the south, after declaring that the seceders had some provocation for their cause and that he had no doubt they felt justified before God and man for their undertaking," he proceeded to say: "Though you may whip the revolutionists you cannot conquer them. I will be asked what would I do—would I yield up forts, arsenals and other property in the seceded states and tamely submit to a dismemberment of our honored and cherished government? This is a question easily asked, but since things have gone so far as they have the answer is neither ready nor certain. The government can never bring this issue to a happy termination. Again, Fellow countrymen, be no deceived by those who tell you that civil war is fidelity to the union, and that compromise and peace are treason and disunion. As there is a God I do not believe this government can be sustained by a war of sections."

Well, the government was sustained by war notwithstanding. Though Gov Whiteaker had "no answer ready" to the question whether the people should allow the country to be dismembered or not, others found an answer. His position was that of a secession governor of a loyal and adhering state. This is no news to old residents of Oregon, but there are many who have come to the state during the last fifteen years who may be glad to have this information concerning Mr Whiteaker's position during the "misunderstanding" before casting their votes at the coming election.

## SUGAR SUPPLY

Much has been said of late of the developed practicability of producing sugar from sorghum and the cane of Indian corn. In view of recent results it does not appear that the claim that our country will soon be able to produce all the sugar required for its consumption is an extravagant one. Of sugar we of the United States consume about two thousand million pounds a year. Of this vast amount we import 1 741 650 000 pounds from abroad, the narrow belt of sugar land along the gulf in our own country producing only 250 000 000 pounds of sugar. We have paid out of the national pocket for imported sugars during the last twenty years over sixteen hundred millions of dollars. We tax imported sugars heavily to protect the few extravagant sugar makers in Louisiana, and pay on an average from ten to fifteen cents per pound for refined sugars when we might in the past and shall in the future so we are told buy equally good sugars at one half the price and put the purchase money into the hands of home manufacturers.

The newly discovered process of making sugar from sorghum and Indian corn cane differs largely from the mode of crystallizing the juice of the Louisiana ribbon cane. The percentage of sucrose (or true cane sugar) obtained from experiments at the United States agricultural department from the last named (choicest variety) of sugar cane was 14 per cent. From the early amber or hum [illegible] cent [illegible] 17 per cent. This shows conclusively that under the new process [illegible] product [illegible] sugar lands are enlarged from the narrow and malarious belt in Louisiana to embrace [illegible] valley of the Mississippi. Not [illegible] only but Indian corn [illegible] to be [illegible] the [illegible] new [illegible] of the country [illegible] experiments [illegible] that [illegible] worth [illegible] as much as [illegible] they [illegible] of [illegible] a [illegible] from one [illegible] of which he obtained sixty nine barrels [illegible] He then [illegible] the canes [illegible] their [illegible] by the new process and extracted therefrom [illegible] of sugar of [illegible] quality [illegible] processes employed [illegible] crystallization of sugar from [illegible] sorghum [illegible] to make [illegible] and inexpensive [illegible] Sugar

work [illegible] per pound this [illegible] a cost of from 4 to 5 cents per pound. The secret [illegible] discovery which it may seem strange was so many years [illegible] the fact that through recent experiments a [illegible] crystallizing the juice of sorghum and corn stalks has been found. It has always been known that sorghum and the cane of Indian corn carried a great amount of saccharine matter, but until recently the syrup had [illegible] efforts [illegible] The agricultural department [illegible] enthusiastic [illegible] the new discovery.

## "ON THE HIGHWAY"

Now is the time of year when the organ waits for the party strikes politicians, candidates, officeholders and committees for needed subsidy. After worrying along in great distress for a year or two the organ sees in the approaching election a hope "looming up" like the rock in Horeb. And now it begins to smite that the waters may rush forth. If they don't rush forth in response to the first call as usually they don't, then it turns things begin. The manager of the organ is the politicians, candidates, officeholders and committees that he must have money for his organ, the great exponent of political truth, over which he presides will be obliged to suspend, and then what will become of the party? If those to whom this tale is delivered be pretty green it will fetch them. But if they have been there before and seen as many have how these demands are invariably made just before elections by organ grinders who are too lazy and too worthless to work in any honorable employment, but live somehow by forcing on the community miserable so-called newspapers which are not wanted and which never can earn a legitimate subsistence, they are apt to deny the application—and then the demand is put in threatening tone. The organ will kick the party wagon clear over unless its want is supplied. It will go over to the enemy. It will join in supporting an independent ticket. It will turn its batteries upon the ungrateful scamps who have refused to do anything for it. In short it will do no end of the most dreadful things. And it will carry all its friends with it. It will show the selfish party leaders who refuse to "come out" what it is to trifle with the powerful organ which holds in its grasp the destinies of "the party." And so look out. This is the time of year when these things are going on. The desperate organ is on the highway demanding of parties and candidates "your money or your life." It is dreadful to think what the result would be if the organ should try to carry out its terrible threats. But it has too much sense for that. It knows well enough that all its little power to get money by this species of extortion and robbery consists in bluster, and when the money is still denied it has nothing to do but pout and whine, subside and suspend.

## THE DRIVER'S WHIP

A dispatch to-day from Chicago says that more than half the delegates so far elected to the Illinois state convention are for Blaine. This is an authoritative answer to Conkling's "blow hard" claim. It is also stated that Senator Logan will remain in Illinois to work up the state for Grant. He is under contract with Conkling and Cameron to deliver the state, and is laboring in great agony to fulfill it. But if there is anything in politics more offensive and odious to the people than everything else it is this work of political bosses, who use their influence as senators through every kind of political intrigue, corruption and intimidation to accomplish their ends. But all this aided by votes in convention from the democratic states of the south, will not nominate Grant. Such is the outlook now. If however the scheme of forcing his nomination should succeed he would be the worst beaten candidate since Gen Scott's defeat in 1852. He couldn't touch Ohio. There is doubt even whether he could carry Pennsylvania, where the republicans are holding county conventions to call on delegates to vote for Blaine in spite of the instruction of Cameron's packed convention. There would be no hope whatever of California and Oregon and Wisconsin, Massachusetts and Maine would go into the list of doubtful states. Then it would be seen how utterly futile would be the reliance on the southern states which are counted for Grant in the electoral college for no better reason than that their delegates to the Chicago convention can be got to vote for him. It is just as well to look at the situation as it is fairly and without flinching. The danger of a crisis in the republican party is just in proportion to the possibility of Grant's nomination. It is idle for any one to shut his eyes to the threatening portents which point to a most serious division of the party in case Grant's nomination is forced by the appliances and in the plan now relied upon by the desperate political gamblers who have staked all on their undertaking.

---

One does not realize the decadence of the naval power of the United States at present, so scandalously disproportionate to the greatness of the country, so forcibly as when he takes a glance at the marine armament of foreign nations themselves vastly inferior to this republic in many material points. For example the condition of the British navy has been improved in an almost incredible degree during the past six years, as shown by the following statement of the first lord of the admiralty. On the 1st of April 1874 of iron clad ships fit to go into action there was 101 044 tons. Those ships were moved by 74 958 indicated horse power, and they had guns which at one discharge could throw 37 300 pounds of metal. Against the 101 000 tons of iron clads in 1874 there are now 27[illegible] 000 tons. Against the 74 000 horse-power then, there are now 195 000 horse power. Against the 37 000 pounds weight of metal which could be thrown then there are now 111 000.

In the new post route bill a route is created from The Dalles via Celilo to Wallula. This it is understood will give a daily mail by steamer to Wallula, Walla Walla, Colfax, Lewiston and other points in Eastern Washington and Northern Idaho, which will reduce the time from Portland to those points one or two days. To render the service efficient route agents should be put on the boats above Celilo. ## PUT TO THE TEST!

THE VARIOUS SALT COMPANIES OF SAN FRANCISCO, hotly competing for the U S Government contract, an analysis was determined upon prior to making any award for Salt supplies. For this purpose that eminent Chemist Thomas Price, Esq, Government Assayer, was employed to test each and every sample furnished and report their comparative merit as regards Purity and Strength. The result as shown below was a complete victory for the American Salt Company, it having been awarded the contract for every description of Salt supplies by the U S Commissary Department and the U. S. Mint

TUESDAY MORNING, MAY 4, 1880.

## CITY.

THE FACTS.—A gentleman who went on the Cascades excursion last Saturday writes a letter to THE OREGONIAN severely criticising the owner and captain of the steamer *Lurline* for landing the main party at a point opposite and a short distance above the O. R. & N. Co.'s wharf boats and then proceeding to a point further up the river with a "chosen few." He deems this action to have been unfair, and thinks that those left behind were shabbily treated. The facts of the case are that the party was landed at a point selected by the committee under whose management the affair was gotten up, and the further progress of the boat was a private enterprise to test her power in climbing the rapids in the interest of United States engineers and steamboatmen. So many people remained on board that it was feared a panic would follow a possible accident, and so the venture was abandoned and the boat tied up at the first convenient place. Certainly it was nobody's business where the boat went during the time the party was on shore.

EXHIBITION.—The first annual exhibition of the Portland Olympic Club will be given at New Market Theater next Thursday evening. A very attractive and enjoyable programme will be given. A number of acrobatic and gymnastic feats will be performed by members of the Olympic Club, among which may be mentioned, calisthenics, tight rope, parallel bars, double trapeze, flying rings, Indian clubs, horse tumbling, groupings, pyramids, leaping, etc. During the evening Miss Belle Dubois will render two songs, and Miss Tuthill will give a recitation. Mr. Henderson has also kindly volunteered and will give a reading. Reserved seats can be had at Bartsch's music store, to-morrow and Thursday, without extra charge.

THE WILLAMETTE.—The recent rains, together with the melting of the snows in the Cascades and Coast Range of mountains, have caused the Willamette river to rise some, and as a natural consequence there is considerable current. The steady rise of the Columbia during the past two weeks has produced a very noticeable increase of the river here. Between the downward movement of the current and the retarding effect of the Columbia checking and backing it up, the river at this place continues to slowly but steadily rise. During the past 24 hours the Willamette has risen over a foot and a half, and the present stage is 18 feet above extreme low water mark.

FROM HOOD RIVER.—A correspondent writing from Hood river, says: Hood river and vicinity is improving. Quite a number of persons have lately settled in the valley on both sides of the river. Most of the farms are now fenced with good substantial post and board fences. The wheat crop looks good. Quite a number of Germans are settling about Hood river. We have a good grist mill, a good sawmill, and two good schools. The Hood River Educational Association have a very nice two story building, the lower story being used for a school room, and the upper for a hall. The winter past has injured the fruit crop some, but not much.

THE COLLINS MURDER CASE.—The grand jury in the state circuit court for Clackamas county has returned a true bill against George Collins, charged with the murder of Clark Hamilton. Collins is indicted for murder in the first degree. Yesterday morning the defendant was brought into court to plead to the indictment. By his attorneys, Hurlat, Gearin & Ball, he moved to quash the indictment because not found by a legally drawn grand jury. This being overruled, a demurrer was filed, which was also overruled. He then plead not guilty, and the trial was set for to-morrow, at 1 o'clock. It promises to be an interesting trial.

FROM ALBANY.—A correspondent, writing from Albany, sends the following: "On the evening of the 29th ult. Mr. and Mrs. Lewis Miller celebrated their silver wedding, and were kindly remembered by their friends with suitable presents for the occasion. Fire company No. 1 presented Mr. M. with a fine watch during the evening, as a token of appreciation and friendship, Mr. M. having served said company as treasurer for a number of years. The occasion was also improved by the wedding of Mr. Ellison and Mrs. Emma Boegle. The gents' and ladies' bands, together with the glee club from Portland, dispensed the music."

A HEAVY BLOW.—From the *Telegram* it is learned that Mr. Ladd met with a severe accident Saturday afternoon during the glassball shooting. It appears that when he was putting one of the balls in position to spring it the trap, which is of immense power, went off and flung the globe into his face. So great was the force of the blow that Ladd was thrown into the air and turned over on his back. It was some time before he was able to see or move but he is all right now, with the exception of a badly bunged and cut face.

A SISTER'S LOVE.—About one year ago Mr. Ogle, a young man who was born and reared in Clackamas county, was accidentally killed in Washington territory by a falling tree. The body was removed to Molalla by order of his only surviving sister, Miss M. T. Ogle, for interment. Miss Ogle has caused a handsome marble slab to be finished, which will mark the last resting place of all that is mortal of her brother. The slab came from the shop of Wm. Young, and will be shipped to its destination to-day.

STRUCK ON THE HEAD.—While a man named Deamer, who resides near Watson's store, in Watson's addition to the city, was working on the new bridge, he was struck on the head by the revolving derrick used in the construction, and knocked off the structure into the water beneath, a distance of fifteen feet. His left arm was fractured by the blow, and when picked up the unfortunate man was unconscious.

A NEW FIRE COMPANY.—In another column will be found a call addressed to the citizens of Northwest Portland to meet at Irving's soap works on Friday evening, May 7th, at 7 o'clock. The object of the meeting is to take steps toward the organization of a fire company.

CONFERENCE SESSION.—The Pacific Conference, of the Evangelical Association, will hold its annual session at Wheatland, Yamhill county, Oregon, beginning on the 18th of June, at 8 o'clock A. M., Bishop R. Dubs of Cleveland, Ohio, presiding. In all probability the camp meeting will be held at the same place and time.

ENTERTAINMENT.—Under the auspices of the young ladies of the Congregational church, an entertainment will be given this (Tuesday) evening in the audience rooms of the church. The entertainment will consist of vocal and instrumental music and recitations. Elsewhere will be found the full programme.

FILED.—Yesterday the Jefferson Street Ferry Company filed a petition in the county clerk's office, asking the county court to grant a license to run a ferry boat between the foot of Jefferson street on the western bank, and U street on the opposite side. It is quite probable that the petition will be granted.

AT TILLAMOOK ROCK.—The *Astorian* of Sunday says: "Mr. Ballantyne, who has been upon Tillamook rock the past six months, is in the city for the first time. The work of preparation has gone along nicely all winter and the rock is now nearly ready for the materials that are to compose the structure.

Y. P. A.—The regular meeting of the Young People's Association will be held this (Tuesday) evening in the vestry of the Baptist church, commencing at 8 P. M. sharp. These meetings are of great interest to those who attend. Everybody invited to come. Strangers made welcome.

JUDGMENT REVERSED.—The case of Norris vs Welch, to inquire into the school election recently held, as to who was elected school director, came up for argument on demurrer to complaint before Judge Bellinger at Oregon City yesterday. The judgment was reserved.

VERY ILL.—The many friends of Joseph Holman, of Salem, one of the old pioneers of Oregon, will regret to learn that he is now lying at his home dangerously ill. Mr. Holman came to Oregon in 1840. We hope to be able soon to chronicle his recovery.

POLITICAL SPEAKING.—Hon. M. C. George, republican nominee for congress, writing from Roseburg under date of May 1st, says: Please give notice that at the earnest request of the citizens of Junction City I will speak there Friday evening, May 7th, at 7.30.

REPORTED DYING.—Mr. Marks Wilzinski, the well known commercial traveler, received a dispatch at Victoria yesterday informing him that his father was dying at San Francisco. Mr. Wilzinski proceeded directly to San Francisco.

WORK COMMENCED.—S. Wilcox, who has the contract for putting in a sewer into Madison street, commenced work yesterday. He has a large force of men, and will push operations through to an early completion.

STATED MEETING.—There will be a stated meeting of Oregon Lodge of Perfection No. 1, A. & A. S. Rite, at their hall, Masonic Temple, this (Tuesday) evening at 7:30 o'clock. Work in the 4th degree.

MEETING.—The monthly meeting of St. Stephen's chapel guild will be held this afternoon at 3 o'clock in the room adjoining the chapel. A full attendance is requested.

STEAMSHIP "COLUMBIA."—By private dispatch it is learned that the new steamer *Columbia* will sail from New York for Portland direct next Saturday, May 8th.

L. R. S.—The Ladies' Relief society will meet this (Tuesday) afternoon at 2 o'clock at the basement of the Presbyterian church.

The Ladies' Social Union of the Taylor Street church will give a literary and musical social, Wednesday evening. Proceeds to be applied toward the organ fund.

## COMPLIMENTARY BENEFIT TO MR. JOHN MAGUIRE.

A house to gladden the heart of a manager and to show the esteem in which he is held by his many friends, crowded New Market theater last evening on the occasion of the testimonial to its popular lessee. In spite of the inclement weather, the auditorium presented a brilliant array of enthusiastic admirers, and it is needless to say the occasion was rendered a most pleasant one to all concerned. The 21st infantry band arrived from Vancouver in due time, and was received by the Emmet Guard and the City Rifles in full uniform. After a finely executed duet for piano by Messrs. Hawes and O'Neil, the charming comedietta "A Morning Call," was rendered by Miss Josephine Cameron and Mr. Barton Hill, with a brightliness and finish that left nothing to be desired. Craven's domestic drama, "Milky White," afforded the numerous audience an opportunity to give Manager Maguire a sincere welcome, and the performance by himself and company was most satisfactory. John R. Wilkin's new drop curtain, "Regulus Leaving Carthage," was unrolled for the first time, and received with unbounded applause as a meritorious piece of scenic art. The selections by the 21st infantry band added a great charm to the evening's entertainment, and the recitations and songs were given as announced on the programme, and highly relished by the audience. In fact there was nothing to mar the harmony of the evening, which wound up with the laughable farce of "The Limerick Boy," and sent every one home in good humor.

### Bethel Home Lodge, I. O. G. T.

This youngest of the temperance organizations in our city held its first meeting for the third quarter of its history, last evening.

Since the 15th of last December there have been 84 initiations. Of these a large number are seafaring people, who take clearance cards when their vessels leave Portland. Twenty three, such were reported to-night, a few others, all "lands people," twelve in number, have withdrawn, leaving a membership of nearly sixty persons united in the bonds of faith, hope and love, and several proposed, who will unite at the next meeting.

The finances of the lodge were reported in a healthy state; all debts and obligations fully paid. Quite a balance remains in the treasury, after paying for an entire new outfit of regalias for the officers.

The lodge held a very interesting home sociable in Bethel hall on Saturday last, which was well attended, and about fifty sat down to refreshments. Some excellent recitations by Mr. J. H. Marvin, interesting salt water songs by seamen present, some of them on their way to join the *Jamestown*, now lying at Sitka, also instrumental music by Prof. Green of the marine service, en route to the United States steam sloop of war, made the entertainment decidedly enjoyable, and many seamen, for whom the Bethel especially labors, went away with happy hearts and pleasant memories of Portland.

The following is the list of officers for the quarter ending August 1, 1880: Mrs. M. E. Stubbs, W. C. T.; Mrs. I. A. McCart, W. V. T.; Prof. J. Murphy, W. S.; J. A. McCart, W. F. S.; W. F. Gallagher, W. T.; B. Burrows, W. C.; E. H. Coe, W. M.; Mrs. E. C. Clarke, W. D. M.; C. J. Clarke, W. C. Gd G. W. Prindle, W. I. G.; Fred Huber, W. A. S.; Bessie Stubbs, W. R. S.; Miss Anna Cassady, W. L. S.

These officers were duly installed by the Deputy, Right Worthy Grand Templar, R. S. Stubbs.

What shall I do for a complexion? is the one abiding thought of many a lady, who needs but that last touch to be a ravishing beauty. Where Nature has failed to do her part, comes in the aid of art, and now that Madame Rachel's Enamel Bloom is freely offered there is no excuse for plainness. This providential invention is made of perfectly harmless ingredients fresh from the world of flowers and plants, and has a most wholesome as well as a delightful effect upon the skin. No toilette table can afford to be without it, and the orders pour in upon J. A. Child, Central Drug Store.

EVERLASTING PERFUME:
Murray & Lanman's Florida Water has often been styled the "Everlasting Perfume." It is indeed true that its delightful and refreshing fragrance lingers for many days around whatever it touches—unlike the ordinary perfumes, that leave no trace of their momentary existence save the sickly heavy odor of rancid oils.
As there are worthless counterfeits of this delicious perfume, buyers should always ask for the Florida Water prepared by Lanman & Kemp, New York.

### Report of State Fair Committee on Wm. Scheffler's Wines and Brandy.

*To the Board of Managers of the Oregon State Fair for the year* 1879—DEAR SIRS: Your committee, appointed to report on the exhibit of wines and brandies, do respectfully report that they have thoroughly examined and tested the PORT, SHERRY and AMBER WINES put on exhibition by Mr. Wm. Scheffler, of St. Helena, Napa county, Cal., and that we have called in experts in aid of our judgment, and would feel that we were doing Mr. Scheffler great injustice did we simply report an exhibit of fine wines. The committee feel that they should go much farther and say we find an exhibit of really very superior wines, which we feel justified in recommending to the confidence of all who have use for wines. We have every reason to believe them pure, and we can say for ourselves that they are delicious in their flavor.

We have also tested Mr. Scheffler's SANITARY (VACUUM DISTILLED) GRAPE BRANDY, and is pronounced by connoisseurs brought to our aid as being wonderfully smooth and inviting—and the fact that by the new process of distilling adopted by Mr. Scheffler the brandy is freed from the fusil oils, is a desideratum never before attained, as we believe, and should and doubtless will make Mr. Scheffler the leading brandy manufacturer on this coast. We would recommend to all druggists a trial of this brandy and these wines. And your committee would recommend the award of the society's diploma for SUPERIOR BRANDY AND WINES.

JOHN G. WRIGHT, Committeeman.
M. WILKINS, Pres State Ag. Soc'y.
G. W. HUNT, Superintendent.

THE OREGON KIDNEY TEA:
Read the following testimonials, not from persons 3,000 miles away, whom no one knows but from well known and trustworthy citizens of Oregon, whose names, written with their own hands, can be seen at our office:

Portland, Oregon, January 12, 1880.
Having a severe Backache last summer, I tried the Oregon Kidney Tea. I used one can, which effected a radical cure. I would recommend it to all who are afflicted as an unfailing remedy.
JULIUS ACH.

Portland, Oregon, February 3, 1880.
Having suffered for years with pains in my back, I tried the Oregon Kidney Tea and found immediate relief and permanent cure. I heartily recommend it to all afflicted in like manner.
MRS L. COHN.

THE FAIT —A gentleman who went on the Cascades excursion last Saturday writes a letter to THE OREGONIAN severely criticising the owner and captain of the steamer *Lurline* for landing the main party at a point opposite and a short distance above the O S N Co's wharf boats and then proceeding to a point further up the river with a chosen few He deems this action to have been unfair, and thinks that those left behind were shabbily treated The facts of the case are that the party was landed at a point selected by the committee under whose management the affair was gotten up and the further progress of the boat was a private enterprise to test her power in climbing the rapids in the interest of United States engineers and steamboatmen So many people remained on board that it was feared a panic would follow a possible accident and so the venture was abandoned and the boat tied up at the most convenient place Certainly it wasn't nobody's business where the boat went during the time the party was on shore.

EXHIBITION —The first annual exhibition of the Portland Olympic Club will be given at New Market Theater next Thursday evening. A very attractive and enjoyable programme will be given. A number of acrobatic and gymnastic feats will be performed by members of the Olympic Club among which may be mentioned calisthenics tight rope parallel bars double trapeze flying rings Indian clubs horse tumbling groupings pyramids expanding etc During the evening Miss Belle DuBois will render two songs and Miss Tuthill will give a recitation Mr Henderson has also kindly volunteered and will give a reading Reserved seats can be had at Bartsch's music store to-morrow and Thursday, without extra charge

THE WILLAMETTE.—The recent rains together with the melting of the snows in the Cascades and Coast Range of mountains have caused the Willamette river to rise some and as a natural consequence there is considerable current The steady rise of the Columbia during the past two weeks has produced a very noticeable increase of the river here Between the downward movement of the current and the retarding effect of the Columbia checking and backing it up the river at this place continues to slowly but steadily rise. During the past 24 hours the Willamette has risen over a foot and a half and the present stage is 13 feet above extreme low water mark

FROM HOOD RIVER —A correspondent writing from Hood river says Hood river and vicinity is improving Quite a number of persons have lately settled in the valley on both sides of the river Most of the farms are now fenced with good substantial posts and board fences. The wheat crop looks good Quite a number of Germans are settling about Hood river We have a good grist mill a good sawmill and two good schools. The Hood River Educational Association have a very nice two story building the lower story being used for a school room and the upper for a hall. The winter past has injured the fruit crop some, but not much

THE COLLINS MURDER CASE.—The grand jury in the state circuit court for Clackamas county has returned a true bill against George Collins charged with the murder of Clark Hamilton Collins is indicted for murder in the first degree Yesterday morning the defendant was brought into court to plead to the indictment. By his attorneys Eualst Gearin & Ball, he moved to quash the indictment because not found by a legally drawn grand jury This being overruled a demurrer was filed which was also overruled He then plead not guilty, and the trial was set for to-morrow at 10 o'clock. It promises to be an interesting trial

FROM ALBANY —A correspondent, writing from Albany, sends the following On the evening of the 29th ult. Mr and Mrs. Lewis Miller celebrated their silver wedding, and were kindly remembered by their friends with suitable presents for the occasion. Fire company No 1 presented Mr M. with a fine watch during the evening as a token of appreciation and friendship Mr M having served said company as treasurer for a number of years. The occasion was also improved by the wedding of Mr Ellison and Mrs. Emma Boegle The gents and ladies bands together with the glee club from Portland dispensed the music

A HEAVY BLOW.—From the *Telegram* it is learned that Mr Ladd met with a severe accident Saturday afternoon during the glassball shooting. It appears that when he was putting one of the balls in position to spring it the trap which is of immense power, went off and flung the globe into his face So great was the force of the blow that Ladd was thrown into the air and turned over on his back. It was some time before he was able to see or move but he is all right now, with the exception of a badly bunged and cut face.

A BETTER LOVE.—About one year ago Mr Ogle a young man who was born and reared in Clackamas county was accidentally killed in Washington territory by a falling tree. The body was removed to Molalla by order of his only surviving sister, Miss M T. Ogle, for interment. Miss Ogle has caused a handsome marble slab to be finished, which will mark the last resting place of all that is mortal of her brother The slab came from the shop of Wm Young, and will be shipped to its destination to-day

STRUCK ON THE HEAD —While a man named Deamer, who resides near Watson's store in Watson's addition to the city was working on the new bridge, he was struck on the head by the revolving derrick used in the construction and knocked off the structure into the water beneath, a distance of fifteen feet. His left arm was fractured by the blow and when picked up the unfortunate man was unconscious.

### COMPLIMENTARY BENEFIT TO MR. JOHN MAGUIRE

A house to gladden the heart of a manager and to show the esteem in which he is held by his many friends crowded New Market theater last evening on the occasion of the testimonial to its popular lessee In spite of the inclement weather the auditorium presented a brilliant array of enthusiastic admirers and it is needless to say the occasion was rendered a most pleasant one to all concerned The 21st infantry band arrived from Vancouver in due time and was received by the Emmet Guard and the City Rifles in full uniform After a finely executed duet for piano by Messrs Elwell and O Neil the charming comedietta A Morning Call was rendered by Miss Josephine Cameron and Mr Barton Hill with a sprightliness and finish that left nothing to be desired. Gray's domestic drama Milky White afforded the numerous audience an opportunity to give Manager Maguire a sincere welcome and the performance by himself and company was most satisfactory John R. Wilkins' new drop curtain Regulus Leaving Carthage was unrolled for the first time and received with unbounded applause as a meritorious piece of scenic art. The selections by the 21st infantry band added a great charm to the evening's entertainment and the recitations and songs were given as announced on the programme and highly relished by the audience In fact there was nothing to mar the harmony of the evening which wound up with the laughable farce of "The Limerick Boy," and sent every one home in good humor

**Report of State Fair Committee on Wm. Scheffler's Wines and Brandy.**

*To the Board of Managers of the Oregon State Fair for the year 1879*—DEAR SIRS Your committee appointed to report on the exhibit of wines and brandies do respectfully report that they have thoroughly examined and tested the PORT SHERRY and AMBER WINES put on exhibition by Mr Wm Scheffler of St Helena Napa county, Cal and that we have called in experts in aid of our judgment and would feel that we were doing Mr Scheffler great injustice did we simply report an exhibit of fine wines. The committee feel that they should go much further and say we find an exhibit of really very superior wines which we feel justified in recommending to the confidence of all who have use for wines We have every reason to believe them pure, and we can say for ourselves that they are delicious in their flavor

We have also tested Mr Scheffler's SANITARY (VACUUM DISTILLED) GRAPE BRANDY and is pronounced by connoisseurs brought to our aid as being wonderfully smooth and inviting—and the fact that by the new process of distilling adopted by Mr Scheffler, the brandy is freed from the fusil oils, is a desideratum never before attained as we believe and should and doubtless will make Mr Scheffler the leading brandy manufacturer on this coast. We would recommend to all druggists a trial of this brandy and these wines And your committee would recommend the award of the society's diploma for SUPERIOR BRANDY AND WINES

The movement in the home market to day has been light in nearly all commodities. The somewhat firmer feeling in wheat indicated in our dispatches from San Francisco and Europe has not affected the local trade perceptibly. In fact the volume of business in this cereal is now so small here that it is difficult to ascertain the terms of transactions sufficient to fix quotations. An offer of 2000 centals Walla Walla has been made within a few days for which the highest bid received was $1 35 per cental.

In the review of the situation in Chicago, telegraphed us yesterday, the indications are pretty strong that an advance will occur in wheat before the 1st of July, but that it will be realized in this market is by no means certain, as tonnage is scarce and the market so unsettled that shippers will decline to make extra exertion to secure charters. At present the feeling in wheat and flour is firmer, but higher quotations are not established.

Wool is quiet, and the reports from the east of a duller feeling tends to depress the local trade. Prices are all off 5 cents per pound below the highest point reached a fortnight ago. The receipts are still small for the season.

From our table of produce receipts it will be seen that wheat in considerable quantities is coming down the Columbia. These shipments are generally consigned to the merchants who have taken the grain for goods sold at points in the upper country and held back during low water for lack of transportation. Could this wheat have been put on this market at the best time it would have brought all of 50c per cental more than it will command now; a circumstance demonstrating the great necessity of railroad facilities with eastern Oregon and Washington Territory.

From Fltneville, Umatilla county: Crops generally look very promising, although some few of the farmers have had to sow the second time on account of the dry [illegible] weather during the latter part of the winter.

Pilot Rock correspondence: The late rains have made the prospects for the coming crops almost a surety. Spring grain is looking well, and what fall sowing was done before winter set in gives evidence of one of the finest harvests we have had in a long time.

### Western Oregon.

Revival meetings under the auspices of the united orthodox churches are in progress at Eugene.

*Astorian*: It has been suggested that steps be taken to kill off the sea lions in this bay, which are a great annoyance to fishermen. We presume Uncle Sam would not object to an oil factory being set up on Sand Island to further the purpose.

DYSPEPSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. MCLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Every box has a red wax seal on the lid, with the impression DR. MCLANE'S LIVER PILLS.

The genuine MCLANE'S LIVER PILLS bear the signatures of C. MCLANE and FLEMING BROS. on the wrappers.

Insist upon having the genuine DR. C. MCLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

The Most Successful Physician on the Pacific Coast,

IN THE TREATMENT OF ALL

CHRONIC AND DIFFICULT DISEASES.

DR. BRENAN WILL GUARANTEE TO CURE any form of disease of the generative organs or private disease.

He has become an expert in the treatment of disease, weakness and derangement of the reproductive organs of both male and female, including diseases caused by the

FOLLIES OF YOUTH,

Such as SPERMATORRHEA or SEMINAL WEAKNESS, or LOSS OF PERFECT VITALITY. Nearly two thirds of all the Chronic Diseases spring, either directly or indirectly, from some derangement of the sexual system and which subject is neglected by the majority of the Medical Profession.

I know that persons who are unfortunate enough to be afflicted by any form of sexual disease have a delicacy in calling upon the proper physician in time, from a sense of modesty and sometimes from ignorance, and permit those diseases to exist until their constitutions become corrupted, their organization broken down and the hope of future happiness blighted, until death becomes a welcome messenger to carry them out of their miserable existence.

Everything strictly confidential under all circumstances.

Lost manhood perfectly restored.

Catarrh, Bronchitis, Throat diseases, Skin Diseases, Rheumatism, Kidney Complaint and all Diseases of the Eye and Ear, Stomach and Bladder, he can cure without fail.

Consultation free, and a list of printed questions sent to those living at a distance who cannot consult him personally. Enclose a postage stamp for list.
